Council for Tobacco Research-U.S.A., Inc.
900 Third Avenue
New York, N.Y. 10022

Gentlemen,

I would be very interested in obtaining detailed information and applications for research funding from the Council for Tobacco Research. Currently our lab is engaged in basic science research directed to elucidating mechanisms of cell activation in human and canine airway smooth muscle. Clinically, the implications for our research relate to bronchospastic diseases including asthma and chronic obstructive disease as well as the respiratory symptoms resulting from air pollution and inhalation of various substances.

Please send the information on your Research Grants to:

Richard K. Murray, M.D.
CVP Division-HUP
Maloney 872
3600 Spruce Street
Philadelphia, PA 19104

Thank you for your consideration.

Sincerely,

Richard K. Murray
